

Installation Instructions

To start the development process please follow the below steps.

1. Download NPM on your local system - [Windows OS](#), [Linux/Mac OS](#)
2. Download the repo on your local machine.
3. Run the command “npm install” to install all the necessary dependencies.
4. Run the command “npm start” to start the development server.
5. The Hosted app can be viewed in the browser by going to the URL - <http://localhost:3000/>
6. All the images needed for development are provided under the public/images directory.
7. You can now start the development process by going through the below user stories.

Submission Instructions

Code Submission:

1. Compress the code on the local system in the form of a *.zip file.
2. Upload the code on your personal google drive in a folder titled - “Name_BD_<Round Name>_Code Base”
3. Don’t forget to change the permissions of the folder to ‘Anyone with the link can edit’.

Loom video submission:

1. Create an account on [Loom](#).
2. Go through the quick tutorial on [how to record loom videos](#).
3. Create a Loom video (while screensharing) covering the following points:
 - a. Show the functionality of the app you have created i.e demo of the working APIs through a command line. (1 min)
 - b. Run through the key parts of your code explaining the core logic and how you organized the code. (2 min)
 - c. Explain your problem-solving approach (what logic you have used and why). (2 min)
4. Please keep your explanation to under 5 mins only.
5. Avoid too much jargon and explain your app in a simple and clear manner.

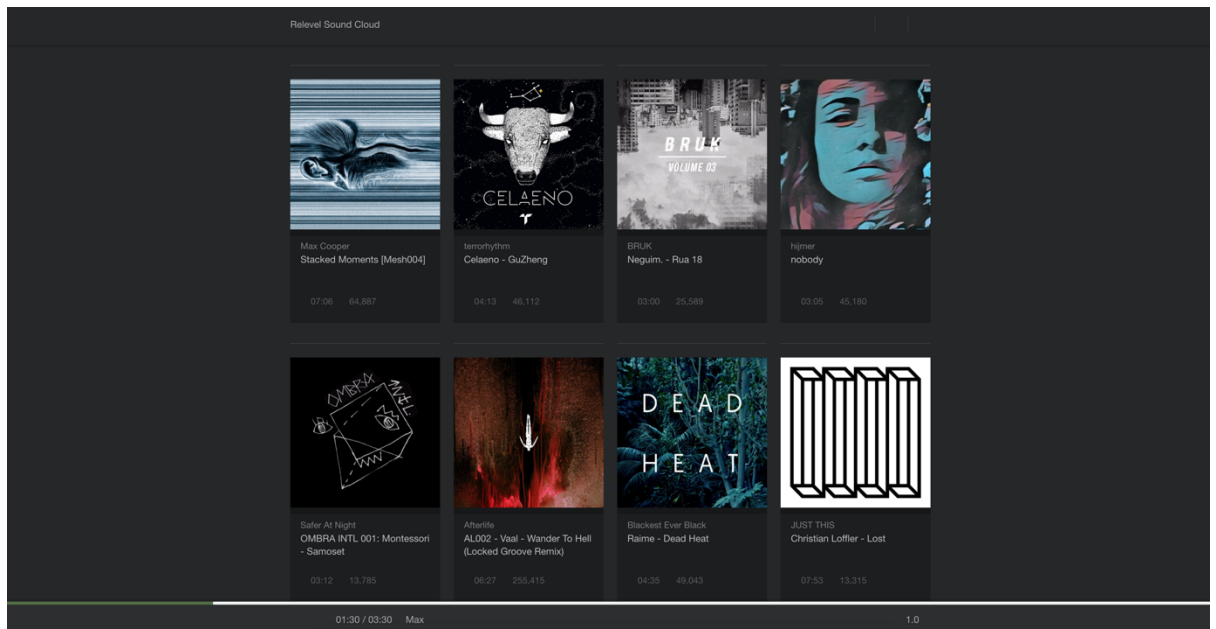

Expected Output

Create your Feature - Question 1 - Landing Page and Song Card

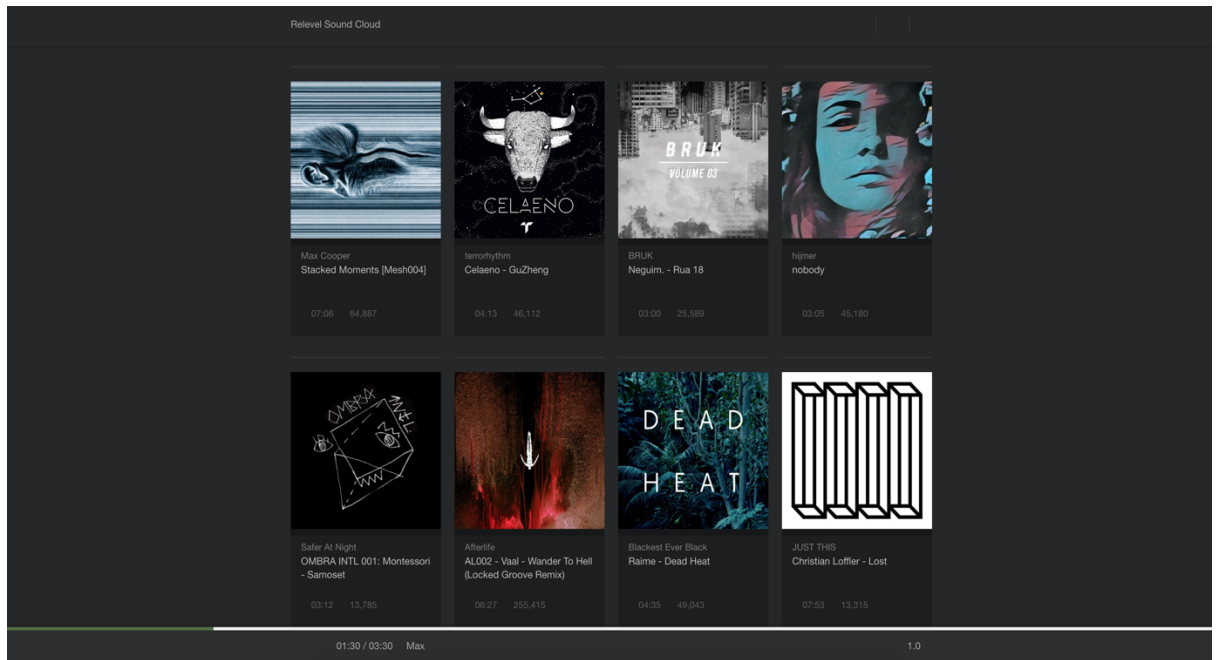

Landing Page

Song Card

Create your Feature - Question 2 - Home Page with Data

Optimize your Feature - Question 1 - Search Functionality
